HEALTH OFFICER'S REPORT

The past year the health of the Community was very good.

One case of Scarlet Fever, origin unknown. The only case to be isolated. At this time there is a type of grippe, most cases very light.

I have inspected one lying-in hospital. Also one foster home and signed applications.

Samples of Town water also samples of Milk and Cream were sent to the State Laboratory in Concord. Analysis good.

I have inspected Rest Rooms, Barber Shops and toilets in the Cogswell and Grade Schools.

I have investigated all complaints and found a remedy in most cases.

Respectfully submitted,

WILLIAM H. CARR,

Health Officer.

Mrs. Dunham, a letter, postmarked "Trinidad" Jan. 1841 written by a man to his parents in Boston, Mass. Mrs. George H. Fitts, Framingham, Mass., The "National Humane Review". Mrs. Chapman, "The Living Tissue". Mrs. M. W. Morse, an open-faced watch, stem wind, with a beautiful picture on the face as well as a space showing the works of the watch. This watch was one that Mr. Seth Morse carried many years. Mr. Seth Morse was Mr. M. W. Morse's father. Also a silver spoon made of the silver shoe buckles from the shoes worn by Mrs. Morse's great grandmother. A map, birds-eye view of the Town of Henniker with places and names of residents year of 1889. Mrs. A. D. Huntoon, the permanent endowment held by the Trustees of Trust Funds for the benefit of the Library has been increased during the year by a gift of one thousand dollars from Mrs. Eva W. Huntoon, as a memorial to her husband and late Alberto D. Huntoon. It will be known as the "A. D. Huntoon Memorial Fund", and the income expended annually for the purchase of books of lasting value. Mrs. Huntoon has also presented the Library with a set of book plates to mark the volumes added from the proceeds of this gift. Both Mr. and Mrs. Huntoon have long been friends and benefactors of our Lib-

rary; The "Huntoon Collection" in the Historical room, was collected and donated by them.

The Librarian and Trustees wish to express their thanks to the voters who granted an additional appropriation for the Library at the last annual town meeting. This additional income made it possible to purchase our usual quota of new books in the face of decreasing income from other sources. We trust that the same amount of \$100.00 may be made available for the year of 1944.

Respectfully submitted,

FANNIE W. BENNETT,

Librarian.

MARION B. GARLAND,

Assistant Librarian.

The total number of school sessions in the district was the lowest in several years. This was caused by bad weather and scarlet fever. There was also a decline in the percent of attendance due in some degree to the same factors. Some pupils remained out of school to work on account of the great demand for labor. Those who were regularly excused for the purpose are not included in figuring the percent of attendance.

The average membership and number of pupils registered were also less than in previous years. In all the small towns of this section there has been a drop of 15-20 % in the number of pupils registered; in one nearly 65 %. This is due to the migration of population to the centers where workers are needed for war industries.

The average number of tardy marks per pupil has considerably decreased, but is still rather high. Of the total number of pupils registered in the district, five were tuition pupils. This makes the number of pupils residing in the district and attending public schools, 253.

Agricultural Course. At the close of the school year 1942-43, our teacher of the Trades and Industries Course left to accept a similar position in a larger school. We were unable to find a man qualified to fill this position owing to the war conditions. For this reason this course was dropped during the year '43-'44. Only a small number of boys would have elected it if we had been able to continue.

Instead of renewing the course in Trades and Industries when we have opportunity, we would recommend that it be replaced by a Course in Smith-Hughes Agriculture. This course is probably better adapted to the needs of the community. It covers work in repair and maintenance of farm machinery including trucks and tractors, soils and crops, animal

husbandry, poultry, etc. With the present shop equipment, very little would need to be added for conversion to an Agricultural Course. Each student taking the course has a special project which he carries on during the summer under the supervision of the teacher of Agriculture. The latter is employed on a 12-month basis. Half his salary for the time employed in teaching agricultural subjects is paid by the federal government.

It has been reported to me by men in a position to know that more boys remain in Henniker to carry on work on the farms than in any nearby town. For these reasons we suggest an Agricultural Course for the serious consideration of the School Board and community as soon as a teacher can be secured.

For the year '44-'45 there will be a greater scarcity of teachers than for this year and salaries will be accordingly higher. There is a constant pressure from the cities and larger centers to secure teachers from the smaller districts. Yet some of our teachers who have had opportunity to seek better paid positions have elected to remain with us. We deeply appreciate their loyalty. Effort should be made to retain them in the district at a salary commensurate with the general increase of teachers salaries and the rapidly rising cost of living.

Respectfully submitted,

JOHN A. SINCLAIR,

Superintendent of Schools.
